Table Definition

Container :   GNIS   Version :

 Table Name : FEATURE_DESIGNATION_CLASSES   Alias   : FEDL
                                             Display Title : Feature Designation Classes

Description :   The domain of feature classes that may (or may not) be associated with
                a feature designation. The feature designation may be assigned to
                features within the specified classes only, unless the excluded flag
                is Y (Yes), in which case the feature designation may not be assigned
                to a feature in the specified class.
