

**Mine Map Data Extraction Project
Final Report - 2012**

Submitted to the West Virginia State Tax Department, Property Tax Division (PTD)
In support of the Mined Minerals GIS

Accomplishments during July:

- The following shapefiles were delivered to PTD on 2 August 2012:
 - --Mined area polygons (**Mines_Shape_Final_20120723**) with metadata
 - --Underground mine portals (**Mine_Portals_Final_20120723**) with metadata
 - --Permit boundary polygons for multi-permit maps
(**Multi_Permit_Maps_Final_20120723**) with metadata
- 78 Re-Georeferenced Mine Maps (**contained within folder ReGeorefd_TY2012_Mine_Maps**)
- The following tracking Excel spreadsheets were delivered to PTD:
 - --Mine map (by Permit#) digitizing (**Mine_Map_Progress_Complete_20120717**)
 - --Re Georeferenced Mine Maps (**Regeoreferenced_Maps_Final**)

The WVGISTC finished digitizing mined areas and delivered the data to PTD. A few digitization questions remain and have been submitted to either WVGES or WVPTD in a document entitled QC2_Questions_AGENCY. These three documents are attached to this email and the permits for which we have questions are noted in Mine_Map_Progress_Complete_20120717. The final stages of digitization and quality control on these permits will be completed pending responses from WVGES and WVPTD. An updated Mines_Shape_Final shapefile will be submitted upon final completion of all permits.

Cumulative work hours for project as of 8/17/2011:

Mined out area digitizing:	261.0
QC1	244.25
QC2 ---	60.5
Metadata	11.0
<u>Admin-</u>	<u>253.0</u>
Total:--	829.75

Additional information

WVGISTC has begun work on WVPTD TY2013 Mineral Parcel digitization as of 7/20/2012. We anticipate completion of this work by the end of September.

This report was prepared by Jessica DeWitt and Eric Hopkins.
