PVC SubCommittee (2013)

The Property Valuation Training and Procedures Commission (PVC) is an eleven-member commission that has the statute authority to establish uniform, statewide procedures for the maintenance, publishing, and selling of tax maps. On 17 January 2013 the PVC appointed a Subcommittee to review issues involving valuation, mapping, and monitoring. Members appointed to the subcommittee include Faith Dangerfield, Kurt Donaldson, Maria Gray, Cal Kent (Chair), Jason Nettles, and Eddie Young.

The Subcommittee met on 1 May 2013 and again on 5 September 2013, whereby the Subcommittee recommended that new digital guidelines for tax maps be approved by the Commission at its next meeting on 13 November 2013 in Flatwoods, WV. Since certain existing map regulations date back to 1990 and only apply to paper tax maps, the Subcommittee recommended that these new guidelines be adopted to address the increased use of geographic information systems (GIS) and web-based technologies that have revolutionized the ability of assessors to disseminate, access, and link parcel data.

Below are highlights of the Subcommittee recommendations:

- 1) **WV Code §11-1C** (*Taxation*): Add the word "electronic" to Chapter 11-1C of the WV State Code so that the tax map rules apply to both paper and digital tax maps.
- 2) WV 189CSR5 (*Tax Map Sales*): Update the guidelines regarding the sale and viewing of electronic tax maps and cadastral GIS data.
- WV 189CSR3 (*Statewide Procedures for the Maintenance and Publishing of Surface Tax Maps*): Add that all symbols and annotation on Finished Tax Maps should still be legible if the original maps are reduced by 50%.
- 4) **County Monitoring Plan:** Amend the Mapping Section of the Monitoring Plan to reflect the new digital guidelines.
- 5) **Property Tax Division:** Various recommendations to the Property Tax Division regarding staffing, outreach and training, data sharing, standards, GIS/IAS integration, digital maintenance, and monitoring.
